## OUR STORY

### GLOBAL AGRICULTURE AND FOOD COMPANY LIMITED

Since its establishment in Dec 2014, GAFOOD has been constantly developing and becomes one of the leading exporters of foodstuffs in Vietnam. We commit to provide products with high quality and nutrition values. Up to now, we have extensive experience in exporting foods, specialized in exporting rice, frozen foods, canned foods, spices and groceries.

## OUR VISION

We envision becoming one of the leading rice exporters in Vietnam as well as the world in the coming years.

## OUR MISSION

With all the respect, love, and responsibility, Gafood aims to bring nutrition values to the world.

# OUR CLIENTS

Since 2014 until now, with a network of global partnerships, GAFOOD increasingly asserted its own position in the field of rice and groceries export when distributing them to many major markets such as US, Canada, EU (UK, Italy, Denmark), Middle East (UAE, Oman), Serbia, Netherlands, Australia, Malaysia, Singapore, Hong Kong.

# OUR PRODUCTS

## VIET RICE

Vietnam has been one of the leading rice exporters in the global market for the past few years. Hence, Vietnamese rice with high quality and reasonable prices is now adored by many customers around the world. It is also Gafood's desire to offer a variety of rice products of high quality, including:

### 1. ST24 - ST25 RICE

ST24 and ST25 are new and superior Jasmine Rice varieties created by sir Ho Quang Cua and his esteemed team. ST24 and ST25 have now conquered the gourmet customers from EU, US, Hong Kong, Singapore, Malaysia... by their specific fragrance, softness and sweetness.

### 2. JASMINE RICE

Jasmine Rice is grown and selected from main regions in Mekong Delta such as: Thot Not district (Can Tho ), An Giang, Kien Giang, Ca Mau province. Its grain size is long, large; crystal white color. Cooked rice is soft and fragrance.

### 3. JAPONICA RICE

Japonica rice has been grown popularly in Vietnam from 2015.

With low amylose content and containing amylopectin, Cooked Japonica Rice is soft, rich flavor, natural sweetness and the first choice of master chefs to make yummy SUSHI dishes.

### 4. LONG GRAIN WHITE RICE

Long Grain White Rice (OM5451): It is primarily grown in the Mekong Delta provinces, gives the full yield and meet the export standards. Grain of this variety is long, slender, little chalky and slightly milky color. Rice is elastic and soft in texture, slightly aromatic when cooked.

## 5. COLOR RICE

# SELECTED RICE

In essence, while Vietnam rice is a high - quality option, offering selected rice provides flexibility, quality assurance, and the opportunity to cater diverse consumer preferences and market conditions.

With characteristic long, slender kernels, light aroma, the rice is not sticky after cooking and the cooked rice is still soft when cooled, SKO is considered one of the popular varieties of fragrant rice.

KDM Rice is long - grain fragrant rice with the average length of 6.9mm and growth time of 6 months, characterized by its long, white grains and the natural aroma of Pandan leaves. KDM Rice emits a sweet and distinctive fragrance when cooked.

# OUR BRAND

# FORTUNE'S

# Hill

## Fortune's Hill:

Inspired by the image of terraced fields in the highlands of Vietnam - Fortune's Hill brings consumers a taste of the daily life of the Vietnamese highlanders.

# SOUTHERN

# Queen

**Southern Queen:** This design is based on the image of Queen Nam Phuong, the last feudal queen of Vietnam. Her hometown in Go Cong is one of the essential granaries in the country.

# SAMROSIEM

SamroSiem

Welcome to the world of SamroSiem, where every grain tells a story of tradition, quality, and exquisite taste. Named after the union of two significant words in Cambodian culture – “Samros,” meaning delicious, and “Siem,” representing an area renowned for its rice industry – SamroSiem embodies the essence of Cambodian culinary heritage.

# BORANGKOR

*Let's come to explore the fragrant rice world in Borangkor. Rooted in the heart of Cambodia's rice - growing regions, Borangkor celebrates the rich culinary heritage of the Khmer people with every grain.*

# OEM CORNER

## *Why we do OEM for customer?*

Besides offering quality products to our customers, we also aim to help them reduce production costs, thereby increasing sale profits. With OEM, buyers don't have to take on too much production work while they still have their own branded products.
